**24-Hour  
U.L. Central  
Station**

NWOSS owns and operates an Underwriter Laboratories (UL) Approved Central Monitoring Station. This station can monitor many different low voltage alarm signals which may include fire alarm, security, access control, and low temperature alarms to name a few. Additionally, our Professional monitoring staff can deliver a customized response to each alarm 24 hours a day, 365 days a year. We are always protecting your building!
